

**Warren Stull**  
Software Architect  
Headquarters, U.S. Air Force

# tele- Work

“Telework allows me to be more focused and engaged on delivering software solutions to the Air Force. DoD telework tools have helped our entire division increase productivity. We even plan on lowering our costs by decreasing the amount of office space we need.”

**DoD teleworks** because it helps keep our people mission ready. It enhances continuity of operations. It helps attract and retain employees. And it reduces our environmental impact.

**Telework works at DoD.** Teleworkers are more engaged, less stressed, and far more productive.

**DoD employees telework** on a regular schedule or just during specific situations—each according to the demands of the mission.

**teleforce** always ready
